

<i>About Medical Device Daily</i>	iii
<b>Introduction</b>	<b>9</b>
Med-tech innovation may be exiting U.S., other countries may fill the gap	11
<b>Where We're Headed</b>	<b>15</b>
Clinic unveils highly anticipated Top 10 medical innovation list	17
DeParle plugs healthcare reform to skeptical crowd	19
Health IT panel proves to be HIT with conference attendees	21
Opportunities seen in ortho and neurostimulation spaces	23
Paulsen slams policies that hold back medical technology	25
Asian markets, especially China, draw interest from attendees	27
Opportunities abound in cardio despite regulatory headwinds	29
Goldman; still too many stray e-parts in typical hospital suite	31
Kappos: end of fee diversion not the end of scrutiny of PTO	33
Shared EHRs are blocked by incompatibility of med-tech	34
Cosgrove: U.S. is currently 'fattest country in the world'	36
<b>Executive/Legislation</b>	<b>37</b>
Stupak eyed a shutdown of DTC gene testing operations	39
Baucus takes aim at Medtronic over canceled Novation contract	41
Stanford v. Roche a warning to universities about contracts	42
Senate eyes doc-owned device distributors, urges OIG review	43
House passes patent bill; fees, prior user issues loom	45
Grassley, Kohl argue for more FDA control of device recalls	47
Supreme Court avails itself of another review of Prometheus	48
Survey: lawsuit fears hinder adoption of new med-tech	50
Court rules Bilski patent not eligible on narrow grounds	52
Healthcare reform enrollment mandate ruled unconstitutional	54
<b>Regulatory</b>	<b>55</b>
Carriers may decide on FDG solid tumor follow-up scans	57
CMS eyes MRI for pacemakers, ICDs; FDA still mum on Revo	58
Design controls may be en route for lab-developed tests	59
CMS proposes a two-year demo for Part B imaging DSS systems	61
FDA cracking down on personalized knee systems	62
CMS offers more class IV VAD coverage, none in class IIIb	63
AdvaMed chimes in on class IIb while FDA ponders changes	65
FDA rescinds the controversial Menaflex 510(k) application	67
FDA publishes long-awaited 510(k) guidance for FFDM	68
FDA eyes reclassification of AEDs to class III/PMA	69
FDA releases special controls for wound closures, NPWTs	71
CMS proposes trial coverage of MRI with ICDs, pacemakers	72
Advisory panel floats 'class III lite' category for AEDs	73
Study says device recalls in U.S., EU, similar	75
AMIC says overall Medicare imaging down 71% in 2009	76
Matrixx decision could prompt more data dumps in SEC filings	77
<b>Financings</b>	<b>79</b>
CEOs are bullish about going public and launching in Europe	81
Funding gap is a continuing problem for start-up firms	88
Boston Scientific gets \$3B credit line to repay debt	97

## Table of Contents

<b>Deals</b>	<b>103</b>
\$23.3B Novartis/Alcon deal paces an active list of med-tech transactions	<b>105</b>
<b>Interviews</b>	<b>119</b>
Chris Coburn: Cleveland Clinic's magician turns innovation into products	<b>121</b>
Chris Rivera: Washington Biotechnology & Biomedical Association president	<b>125</b>
William Trainor: Mutual Capital Partners co-founder	<b>130</b>
Manny Villafana: Med-tech entrepreneur extraordinaire	<b>134</b>
Rick Randall: Chairman/CEO, Avantis Medical & veteran med-tech executive	<b>138</b>
<b>Biomaterials</b>	<b>143</b>
Tissue engineering, related technologies are focus at conference	<b>145</b>
Guided stem cells may provide therapy for chronic HF patients	<b>149</b>
Research shines spotlight on regenerative medicine	<b>151</b>
TRT enlists 'soft' shock wave to help heal tissue	<b>153</b>
CorMatrix ECM shows potential to reduce new onset post-op AF	<b>155</b>
Kuros regains rights from Baxter for KUR candidates	<b>157</b>
<b>Cardiovascular</b>	<b>159</b>
Disruptive cardio technologies attracting investors' attention	<b>161</b>
Cardiothoracic surgeons learn of latest surgical innovations	<b>163</b>
Device-based HF therapies linked to lower mortality risk	<b>165</b>
CorMedix sees big opportunity with drug/device combination	<b>167</b>
Analysts see HeartWare taking lead in LVAD market position	<b>169</b>
St. Jude announces first implant of Portico valve	<b>171</b>
Medtronic launches Contour 3-D annuloplasty ring	<b>172</b>
Medtronic could face significant stumbling block in AFib market	<b>173</b>
Medtronic gains FDA approval for Consulta and Syncra CRT-Ps	<b>174</b>
TAVR matches surgery survival, but shows higher stroke rate	<b>175</b>
Boston Sci receives approval for ION DES	<b>177</b>
Covidien's TurboHawk PAD excision system launched	<b>178</b>
<b>Diagnostics</b>	<b>179</b>
Diagnostics field faces legal and regulatory growing pains	<b>181</b>
Reimbursement change may boost adoption of MTWA test	<b>184</b>
Lantheus to focus on less invasive cardio-tests	<b>185</b>
GE seeks better diagnosis of early stage colon cancer	<b>187</b>
FDA clears first lab-quality tBili test available in NICU	<b>189</b>
Chembio Diagnostics provides patients rapid HIV test results	<b>190</b>
Advances in PSA testing may reduce unnecessary biopsies	<b>191</b>
Gene testing of fluid specimens helps identify cancer origin	<b>193</b>
Pathwork gains approval for its new Tissue of Origin test	<b>195</b>
Roche wins FDA approval for Elecsys anti-HCV test	<b>196</b>
Seegene develops Sepsis assay and TB diagnostics application	<b>197</b>
Elekta's Symmetry now gives 4-D view of moving tumors	<b>198</b>
SMI to use satellite spy technology to find cancer	<b>199</b>
Monitoring diabetes an issue; there's an app for that too	<b>201</b>
<b>Healthcare IT</b>	<b>203</b>
Heavy metal gives way to software in new products	<b>205</b>
Europe scales up cross-border e-health and tele-monitoring	<b>211</b>
Shared EHRs are blocked by incompatibility of med-tech	<b>213</b>
France brings EHR online targeting 2 million patients	<b>215</b>

U.S. News names the most connected hospitals in U.S.	218
FDA's mobile medical app draft may allow class III designation	219
'Meaningful use' of EHRs defined in two final rules	221
New mobile app to help decipher medical tests	224
GE snags meeting spotlight for several HIT announcements	225
<b>Imaging</b>	<b>227</b>
Agfa takes a step back in X-ray to advance with IT	229
Merging MRI with PET Siemens challenged to prove clinical case	231
Price war unofficially declared in Europe for digital X-ray	233
Superior capabilities boost hybrid imaging, says report	235
Draeger monitors to feature novel imaging modality	237
VisualSonics developing new photoacoustics imaging tool	239
Study supports VH IVUS over angiographic imaging	241
Siemens crafts panel to focus on lowering CT scan radiation	243
Path clearer for Hologic's 3-D mammography system	244
<b>International</b>	<b>245</b>
Interventionalists embrace new hypertension therapy	247
Tightening up on TAVI to extract stronger evidence	250
Virtual FFR to disrupt 40 million heart exams	253
Biomed meeting comes alive with tour of conference floor	255
Vexing barriers for U.S. entry push Vexim to global markets	257
MRI wins a reprieve from the European Commission	259
Authors of <i>BMJ</i> article seek tighter UK device recall regs	261
AMO prosthetic arm movement fueled by signals from the brain	263
Seeing opportunity, OrbiMed sets up new fund in Israel	265
Israel's commitment to the biomed community strong	267
<b>Nanotech</b>	<b>271</b>
Abbott reports Xience nano approved in smaller vessels	273
Micro-optimism detected among nano manufacturers	274
Roche inks OEM pact with IT-IS for LightCycler Nano	275
Shrink Nano, EV to design StemDisk cell platform	276
Dynasil company wins \$6.2M in DoE grants	277
Microvisk Technologies raises £2.5 million in financings	278
<b>Neurology</b>	<b>279</b>
CAE vs. CAS debated by surgeons at ISC meeting	281
Opportunities seen in ortho and neurostimulation spaces	285
FDA grants IDE approval for Penumbra's THERAPY trial	287
FDA approves Covidien's DuraSeal Exact spine sealant	289
St. Jude 'broadens' clinical study with FDA approved expansion	291
PFO/stroke connection remains perplexing medical conundrum	293
Medtronic DBS system gets CE mark for epilepsy indication	295
NeuroPace seeking PMA for neurostimulation system	296
BrainStorm engages Mass. hospitals for ALS research	297
<b>Oncology</b>	<b>299</b>
Latest breast cancer research reveals potential paradigm shifts	301
New clinical research validates Calypso's Gating technology	306
First five patients treated in TriVascular's OVATION trial	308
KRAS diagnostic test receives CE Mark	309

## Table of Contents

MPC to use ITA's eviti for oncology support	310
BSD Medical's technology receives boost from study	312
Imaging's future role in cancer therapy evaluated	314
OncoSec, not your typical startup by a long shot	316
HexaPOD offers greater accuracy in cancer treatment	317
NICO gets CE mark for Myriad brain tumor removal device	318
Everist hits the market with its colorectal cancer assay	319
<b>Ophthalmology</b>	<b>321</b>
NovaVision hopes to bring VRT technology to forefront	323
Arizona engineer develops at-home glaucoma test	325
RHP in ophthalmology space with newly launched BVI	326
Japanese contact lens maker Menicon acquires Lagado	328
PixelOptics develops notable new alternative to bifocals	329
Retina Implant eyeing U.S. clinical trial site	331
VisionCare telescope implant approved by FDA for AMD	332
<b>Orthopedics</b>	<b>335</b>
AAOS attendees are cautiously optimistic on orthopedics sector	337
Smaller orthopedic companies providing big spark for sector	339
Cartcept Medical receives FDA approval for NDS	341
FDA clears Aquamantys bipolar sealer from Salient	343
Sanuwave's orthoPACE gets boost from new study	344
Emerge sees a need for line of generic orthopedic devices	346
LDR in bid to gain FDA approval for Mobi-C	348
Medtronic launches new Kyphon Xpede Bone Cement	350
DSM plays behind the scenes role in device development	351
Analyst sees opportunity in 'new age' of orthopedics	353
<b>Surgical</b>	<b>355</b>
Single Port Surgery and the Robot: Who Pays?	357
Updates in Gynecology: Robotic Trends & Clinical Trials	360
New modality for monitoring lung set to challenge CT, TEE	364
Maquet and Philips reveal 'truly hybrid' operating room	367
Presenters tout big advances with lasers in cataract surgery	369
Surgeon combines lasers and robots for procedures	371
Several non-surgical attempts to address obesity epidemic fail	373
New studies bolster safety and efficacy of Lap-Band	375
<b>Women's Health</b>	<b>377</b>
New imaging modalities focus on breast cancer	379
China to dominate low-end European ultrasound market	381
Halt closer to fibroid indication with FDA OK of ablation system	383
Guided Therapeutics seeks PMA to find cancer via light	384
Group launches Vivere to tackle ART procedures	385
Mammostrat helps quantify likelihood of breast cancer recurrence	386
FDA approves first 3-D mammography system	387
Few regret elective removal of healthy breast years later	389
FDA approves HER2 gene assay status in breast cancer patients	391
<b>Index</b>	<b>393</b>
