About BioWorld®

BIO WORLD TODAY, the newspaper of record for the biotechnology industry, is read by biotechnology professionals worldwide for its hard-hitting, objective news reporting. *BIO WORLD TODAY* is delivered by email and fax every business morning, and also is found exclusively online at www.bioworld.com. The BioWorld Online website has been internationally recognized as the most comprehensive resource for strategic biotechnology news and information available today. In addition to original daily news reporting, BioWorld offers an extensive searchable database with more than 20 years of biotechnology archives. This site is not only a great source for insightful, up-to-the-minute news coverage, but a veritable library of information on the developments of the industry as well. With a quick search, BioWorld subscribers have instant access to a wealth of biotechnology market intelligence from every biotech hotspot around the globe.

BioWorld does not post press releases, but rather uses information that is researched and written by the top business and science reporters in the industry. With nearly 20 writers spread throughout eight countries, BioWorld covers news on public companies and hard-to-find information on private companies. Our seasoned reporters get the inside scoop on what's happening within the corporate walls, on regulatory issues in Washington and elsewhere, and on scientific breakthroughs worldwide. This news coverage of the biotechnology industry is 100 percent original and available only at BioWorld.

All of the BioWorld resources are available for easy online searching, including:
